

## ANNOUNCEMENT

WESTERN RUBBER PRODUCTS is pleased to advise that we are making a major investment in our shredding plant located in Delta, BC.

Effective April 1, 2015 the existing plant will be closed and all shredding equipment will be dismantled and removed. An entirely new shredding line is to be installed at the existing plant.

Expected startup of this new shredding line is April 20<sup>th</sup>.

Scrap tire generators should expect an interruption in their pickup service.

No scrap tires will be picked up between March 25<sup>th</sup> and April 15<sup>th</sup>. (Please note these dates are approximate and are subject to adjustment pending arrival of the new equipment).

If you require further information, you may call 1 866 497 0281 (toll free) or 604 524 6313.

This investment is being made to replace long serving equipment that has reached the end of its effective life. Our significant investment is a demonstration of our commitment to the tire recycling effort in British Columbia.

We thank you in advance for your patience and look forward to sharing with you our experience with our new “state of the art” equipment.
